

The Metaphysical Consequences of... The 'COVID Jab' ...in Light of the Occult Matrix and The Way Out

Introduction

Interferences, manipulation, and influences by hyper-dimensional occult hostile forces as well as partial or complete possession by demonic entities have been a well-established fact throughout the ages.

It is taught (and warned about) in all the occult and complete esoteric/spiritual teachings (for example, [Sri Aurobindo's Integral Yoga](#)).

Modern materialistic thought, which has been completely separated from spirit, and the ever-increasing influence of ***the corrupted church of scientism*** as well as the corruption in psychiatry that,

labels any "mental illness" as some sort of "brain chemistry imbalance" debunk these ideas as nonsense, "hallucinations", "superstition", "projections of our psyche", or "[schizophrenia](#)" and has put Man in the center of the universe as if no other forces exist within/around him and can't influence him from non-physical realms.

Before we address the interrelationship between the experimental [mRNA COVID](#) jab (which is not a "vaccine" in the true meaning of the word) and entity possessions and/or interferences by occult hostile forces, here's a longer excerpt from Sri Aurobindo's seminal work "The Live Divine", summarizing what all the occult esoteric teaching has conveyed throughout the ages and what I've written about in-depth (and experienced) over the years as well:

We are transducers of higher forces (divine and hostile) and we need to make the right choice of what to align with in light of the evolution of consciousness and the Time of Transition we're currently in.

(I've addressed the corruption of "non-duality" teachings (sitting on the sidelines in pseudo-intellectual "neutrality") and other spiritual-bypass New Age ideas before.):

"When we go back into ourselves very deep away from the surface appearance, we find that the mind, heart and sensational being of man are moved by forces not under his own control and that he can become an instrument in the hands of Energies of a cosmic character without knowing the origin of his actions.

It is by stepping back from the physical surface into his inner being and subliminal consciousness that he becomes directly aware of them and is able to know directly and deal with their action upon him.

He grows aware of interventions which seek to lead him in one direction or another, of suggestions and impulsions which had disguised themselves as original movements of his own mind and against which he had to battle.

He can realise that he is not a conscious creature inexplicably produced in an unconscious world out of a seed of inconscient Matter and moving about in an obscure self-ignorance, but an embodied soul through whose action cosmic Nature is seeking to fulfill itself, the living ground of a vast debate between a darkness of Ignorance out of which it emerges here and a light of Knowledge which is growing upwards towards an unforeseen culmination.

The Forces which seek to move him, and among them the Forces of good and evil, present themselves as powers of universal Nature; but they seem to belong not only to the physical universe, but to planes of Life and Mind beyond it.

The first thing that we have to note of importance to the problem preoccupying us is that these Forces in their action seem often to surpass the measures of human relativity.

They are in their larger action superhuman, divine, titanic or demoniac, but they may create their formations in him in large or in little, in his greatness or his smallness, they may seize and drive him at moments or for periods, they may influence his impulses or his acts or possess his whole nature.

If that possession happens, he may himself be pushed to an excess of the normal humanity of good or evil; especially the evil takes forms which shock the sense of human measure, exceed the bounds of human personality, approach the gigantic, the inordinate, the immeasurable.

We are not aware of the action of these Powers, Forces and Influences upon us, but take them as formations of our own life and mind, even when our reason or will repudiates them and strives not to be mastered:

but when we go inwards away from the restricted surface consciousness and develop a subtler sense and deeper awareness, we begin to get an intimation of the origin of these movements and are able to watch their action and process, to accept or reject or modify, to allow them passage and use of our mind and will and our life and members or refuse it.

In the same way we become aware of larger domains of mind, a play, experience, formation of a greater plasticity, a teeming profusion of all possible mental formulations, and we feel their contacts with us and their powers and influences acting upon our parts of mind in the same occult manner as those others that act upon our parts of life.

This kind of experience is, primarily, of a purely subjective character, a pressure of ideas, suggestions, emotional formations, impulsions to sensation, action, dynamic experience.

However large a part of this pressure may be traced to our own subliminal self or to the siege of universal Mind-forces or Life-forces belonging to our own world, there is an element which bears the stamp of another origin, an insistent supraterrrestrial character.

The forces and beings of the vital world have a great influence on human beings.

The vital world is on one side a world of beauty - the poet, artist, musician are in close contact with it; it is also a world of powers and passions, lusts and desires - our own lusts and desires, and passions and ambitions can put us into connection with the vital worlds and their forces and beings.

It is again a world of things dark, dangerous and horrible. Its influences are also the source of much in men that is demoniac, dirty, cruel and base.

All this our reason cannot grasp because it is the instrument of an ignorance with a very limited vision and a small stock of accumulated and not always very certain or reliable knowledge and because too it has no means of direct awareness.

For this is the difference between intuition and intellect, that intuition is born of a direct awareness while intellect is an indirect action of a knowledge which constructs itself with difficulty out of the unknown from signs and indications and gathered data.

Sri Aurobindo
[The Life Divine](#)

We are constantly being influenced by the occult (hidden) forces of nature and conscious forces from the higher and lower realms.

We are subjected to the suggestions of occult hostile forces of the vital world, but we also receive insights, creative and inspirational impulses from Spirit, the Higher Self, and divine forces which also manifest as thoughts.

Creatives, sensitive people, writers, artists, and musicians get most of their inspiration from these lower/higher realms.

We all receive a mixture of these impressions/thoughts from the whole range of lower to the higher realm depending on many factors.

Based on our level of Being (soul individuation), our intentions and aspirations in life can either be guided from the lower nature or we can choose to align them with higher ideals.

The direction we bring our awareness towards determines which realm we tune into and the forces we align with.

As long as we live on the surface of the socially conditioned ego-personality (which is also the result of unconscious trauma, childhood wounds, past life karma, etc), the majority of this will be unconscious and

mechanical, living under [the illusion of "free will"](#) while we are guided and/or manipulated by hidden forces outside our five-sensory perception.

"Naturally, it is only human to reverse the order of things and put ourselves in the center of the world.

But this is not a matter of theory, always debatable, but of experience, which everyone can have.

If we go out of our body and consciously enter these planes, we realize that they exist outside us just as the entire world exists outside Manhattan, with forces and beings and even places that have nothing in common with our earthly world; entire civilizations have attested to this, stating it, engraving it, or painting it on their walls or in their temples.

These planes do not depend upon us or upon what we think of them any more than the sea depends on the anemone; they exist independently of man.

Modern psychology, for which all the levels of being are mixed together in a so-called collective unconscious, like some big magician's hat from which to draw archetypes and neuroses at random, betrays in this respect a serious lack of vision:

first, because the forces of these planes are not at all unconscious (except to us), but very conscious, definitely more so than we are; and secondly, because these forces are not "collective," in the sense that they are no more a human product than the sea is the product of the anemone; it is rather the frontal man who is the product of that Immensity behind."

Satprem [Beings and Forces](#)

Again, all esoteric traditions talk about these occult forces in their own ways throughout the ages.

But a lot of this knowledge has become "occulted" (hidden) - not to deceive people but to protect the "ultimate secret - the [topic of all topics](#) and the ancient old [Great Work](#) to "transcend the matrix". In the old days, it was very dangerous to "*throw pearls in front of swine*" because they understood that these forces would act through the sleeping masses and attack anyone who dared to "step out of the herd" and "*they may trample them under their feet, and turn and tear you to pieces*" as it is written.

Nowadays, although it still isn't pleasant to deal with, in light of what we are all experiencing in the age of censorship, "cancel culture" and "virtue signaling", but at least you usually don't get burned at the stake for it... well, maybe we still do, but just metaphorically speaking.

Not everyone is ready for this knowledge and the *Great Work* either, let alone able to handle occult knowledge and *The Work*.

It all depends on the "ripeness of the soul" (level of Being) after many cycles of incarnations.

In fact, it can drive people into madness and they can get lost in the occult maze as many masters have warned about and as we already see in the New Age "fringe scene" where people do not have the psychological foundation (lack of basic psychological work) and engage in all kinds of spiritual bypassing (mostly via blaming entities for their own stuff.)

They're lost in paranoia, shadow projections, and psychosis, or they try to make contact with these beings intentionally - which most often results in traps of agreement.

"One comes inevitably into contact with the vital plane and enters into it in the expansion of consciousness which results from an inner opening, but one ought never to put oneself into the hands of these beings and forces or allow oneself to be led by their suggestions and impulses.

This is one of the chief dangers of the spiritual life and to be on one's guard against it is a necessity for the seeker if he wishes to arrive at his goal.

I would consider it best to have the spiritual and psychic development first and have it with the same fullness before entering the occult regions.

Those who enter the latter first may find their spiritual realization much delayed - others fall into the mazy traps of the occult and do not come out in this life."

Sri Aurobindo
Letters on Yoga

During this dark age of the *Kali Yuga cycle* (when Man is the furthest removed from the Divine), we now have also,

ever-increasing pathologies and psychopathy being normalized in our society and promoted as desirable and "normal" as we see in the satanic ideologies (inverted Natural Law) of the woke cult, non-binary gender identities, neo-cultural-Marxism, pathological sexual fetishes, etc, all of which are the suggestions of demonic occult forces that work through people and/or have taken them over.

It also ties in the native American [concept of Wetiko](#) which **Paul Levy** has written about in-depth.

Many of these normalized pathologies have also infiltrated pop-spiritual communities (New Age, neo-tantra), "woke" psychology, and [Big Pharma drug-based psychiatry](#)... and as you can observe, children are being targeted the most, especially through,

- public education
- official cult-ure
- entertainment
- music
- Hollywood.

Trust the Science!

The masses have been programmed to "trust the science!".

They just mechanically repeat what the *Church of Scientism* has indoctrinated them with, and hence they believe all the lies and propaganda about COVID and the vaxx, including all the useless tests (with fake positives), corrupted statistics, and distorted data of COVID cases (with millions of flu and pneumonia cases (including deaths) counted as "COVID".)

None of their thoughts or beliefs are their own.

It's a massive global mind-control program that is also supported and executed via the corrupted Mainstream Media and Big Tech...

Here's a scientific fact for you:

Anyone (and any institution, especially the CDC, WHO, FDA, Big Pharma companies) who is telling you that the COVID jabs are "safe and effective" is either purposely lying (as psychopaths do without any remorse whatsoever), ignorant, brainwashed, has been seriously misled, or is simply a blind believer of the "Church of Scientism" (with its head snake [Fauci](#) and [Big Pharma](#)) and not applying the true scientific method at all.

Real science and real scientists/doctors with conscience, courage, and integrity are being censored, canceled, and fired left and right from speaking out about **the truth** and the **very real life-threatening dangers** of this experimental treatment (that cannot even be called a vaccine in the true meaning of the word - which they state as well).

You will not hear about them on [the MSM](#) as they are being systemically censored and suppressed.

Here are a few videos/presentations of these doctors with a conscience:

- [Pathologist's summary of Post-vaccination death autopsy findings - Dr. Ryan Cole, MD. Board-certified anatomic pathologist](#)
- [Various doctors and scientists speaking out against the COVID jab as well as exposing the useless PCR test](#)
- [Dr. James Neuenschwander - Vaccine is Killing People and Does Not Stop the Spread](#)

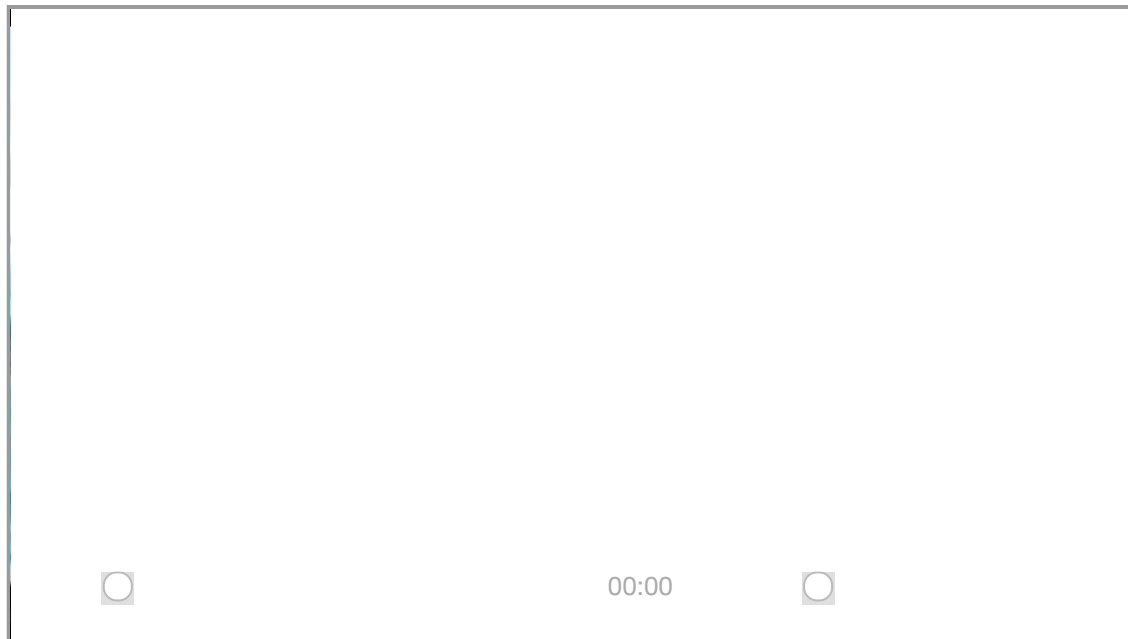

This "**experiment**" has already injured and killed hundreds of thousands of people (if not millions) worldwide but these numbers are suppressed, ignored, or falsely associated with other "causes of death/illness".

The numbers will increase exponentially over the next five to ten years, especially with ongoing booster shots. It will also affect generations to come.

It's a ticking time bomb and the real bioweapon...

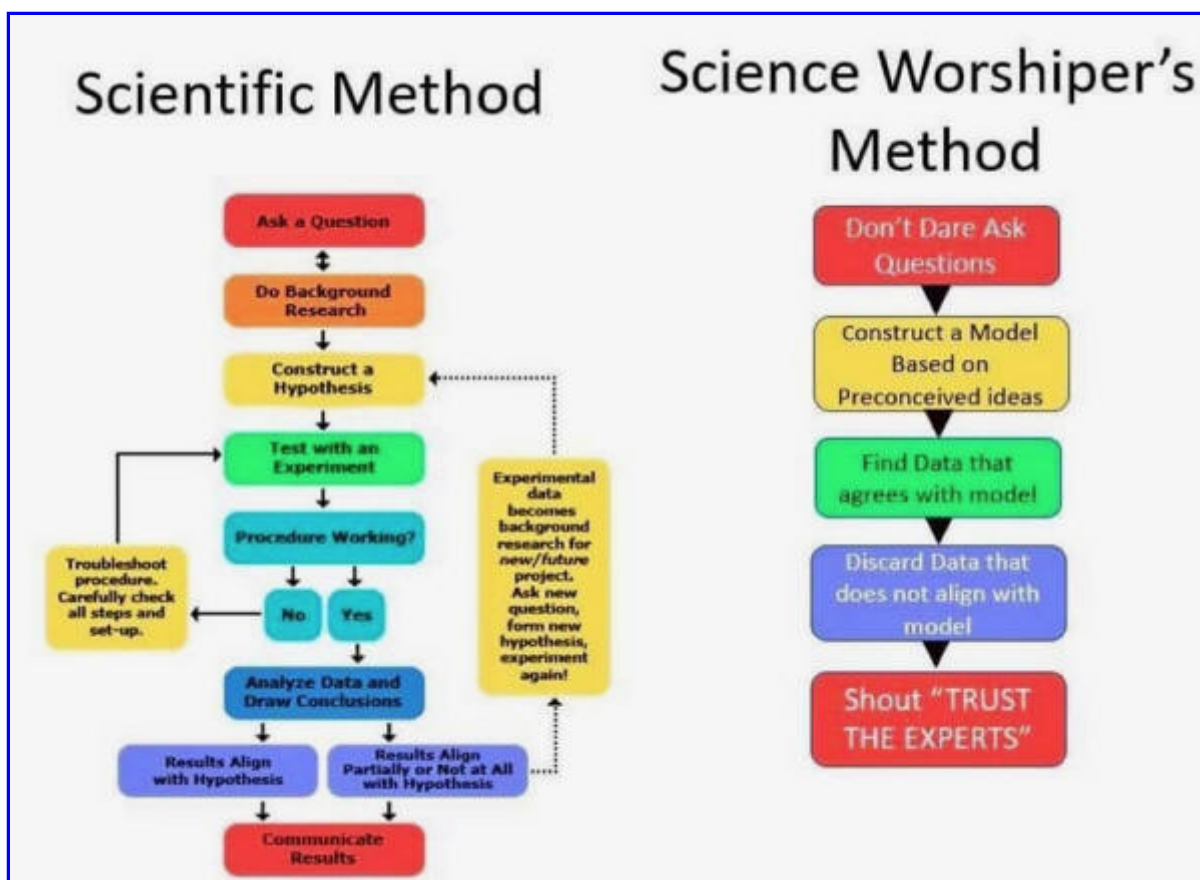

I also recommend watching this interview with Dr. David Martin who exposes the whole COVID narrative.

Stew Peters talked with Dr. **David Martin** in a historical interview with inarguable fact-based exposure that should be seen by the entire world as an absolute end to the official story of COVID:

The only blind spot these courageous doctors who speak out have is that they do not understand the real intention and goal of these jabs - which is as evil as it gets - and how it relates to the long-planned depopulation/eugenics agenda that was decided upon a long time ago.

There is tons of material out there that proves that this is not a "conspiracy theory" anymore but a conspiracy fact based on books, white papers, and documents written by the psychopathic globalists themselves.

On another note, there is also much debate about IF the COVID virus even exists or has ever been properly isolated. It would also imply to question the history of modern medicine and "germ theory".

Does that mean people didn't get sick or didn't die?

No, not all, but did they really die of COVID...?

This is a huge topic on its own which I won't go deeper into in this article.

I recommend looking into the work of Dr. **Andy Kaufman** and **Jon Rappoport** who has been exposing Big Pharma and the Medical Mafia Cartel for over 30 years.

Here are some of his recent articles:

- [The 'pandemic' virus that doesn't exist](#)
- [More on the coronavirus that doesn't exist](#)
- [Dr. Andrew Kaufman refutes "isolation" of SARS-Cov-2; he does step-by-step analysis of a typical claim of isolation; there is no proof that the virus exists](#)
- [The missing COVID virus - answering critics' objections](#)
- [Wuhan Lab, bioweapon, gain of function, but... the SARS-CoV-2 virus doesn't exist in the first place - Putting the paradox together](#)
- ["If there is no virus, why are all these people dying?"](#)

- [Turning flu cases into COVID through manipulation - easy as pie](#)

In my view, regardless of [if the virus is real or not](#) (or the issue with "germ theory"), the COVID 'pandemic' cannot be even called a "pandemic" going by,

- the official numbers of **99.97% survival rate**
- the issues with the [PCR tests](#), etc.

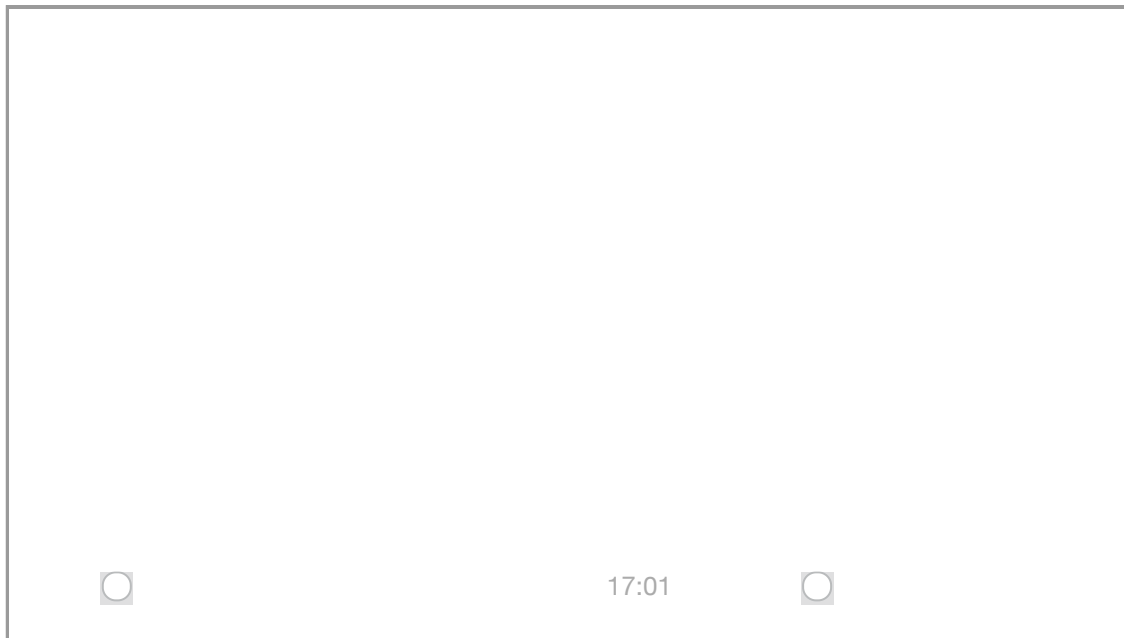

But the real issue and the focus of this essay is the COVID jab which is more dangerous than any "virus" and mandating the jab (and vaxx passport) has been the main agenda all along in classical *Hegelian dialect* fashion:

[Problem - Reaction - Solution...](#)

The COVID Jab and Occult Forces

As more and more people get the (experimental) Covid vaxx, we can now also see clearly the results of what **Rudolf Steiner** warned about over a century ago, whom I quoted before in my article "[The Long Range Matrix Agenda and What We Can Do About It](#)" where I discussed this topic before.

Besides the proven detrimental physical "side-effects" (short-term and long-term) and deaths in light of the depopulation agenda, the vaxxed are also becoming vehicles of [wetiko/archons/occult hostile forces](#) (whatever name you want to give the anti-divine forces) as the astral body/psychic being/soul is being "pushed out" by this "experimental needle rape", as one Doctor with a conscience called it:

These demonic entities now take over the bodies of the vaxxed and use them as "incarnational vehicles" (Matrix Agents) to carry out their agenda as you can see already with their demands of what they want to do with the "unvaxxed" (see pics below.)

It is similar to what happened in **Nazi Germany** and any communist/socialist countries (old USSR, China, North Korea, Eastern Germany etc.)

From a hyper-dimensional perspective, WWII was just a "practice run" for what we see now happening globally.

Ich bin schon dafür das schwurbeInde #Querdenker endlich von den normalen Menschen getrennt werden müssen. Bis die sich impfen dann dürfen die wieder zurück. Man kann denen z.B. ein Stadtteil zuweisen und dort von außen versorgen. Dann können die keinen anstecken außer sich.

Translated from German by Google

I'm the one who gushes for it #Querdenker must finally be separated from normal people.
Until they vaccinate, they can go back.
You can, for example, assign a district to them and supply them from outside.
Then they can't infect anyone but themselves.

Remember, the *real architects of the Matrix and puppet masters* are on a 4D level in hyper-dimensional non-physical realms. On 3D levels, we only see the manifestations.

Psychopaths like,

- [Gates](#)
- [Fauci](#)
- **Trudeau**
- [Schwab](#)
- [Biden](#)
- **Pelosi,**

...and the rest of the globalist elite are just empty shells fully occupied by occult demonic forces.

You CANNOT reason with them.

They do NOT CARE about any protests.

They are also just the expandable public figures anyway.

Don't waste your time (and energy!) projecting your hate on them or "trying to make them see"... it is EXACTLY what the occult forces want you to do for they FEED off that.

People who are familiar with my work (or these topics) already know all this. Here's a brief synopsis in a 12min clip:

[The Matrix of Control Beyond Its 3D Manifestation.](#)

Everything that is happening now is just more confirmation of the obvious:

The invasion is happening THROUGH humans as they willingly (via mind control, social engineering, propaganda and manipulated "Free Will" - the ultimate Trap of Agreement) become "organic robots" and "Agent Smiths" whose soul is being driven out to make room for the ultimate "alien invasion" through human bodies.

The complete take-over will then happen through [A.I.](#) and [Transhumanism](#) (at least that is their long-range plan), which is already pushed by "[organic portals](#)" like **Elon Musk** (whom many people cheer on and positively project on as the "technocrat savior").

He's also a tool of hyper-dimensional forces.

Here are some relevant quotes in the light of entity attachments/possession, "soul extraction" and the metaphysical effects of the vaxx:

Question:

"When a human being is possessed by a hostile (occult) force, what becomes of his psychic being (soul)?"

The Mother Mirra Alfassa:

"It depends on the degree of the possession. Usually it is something progressive. First there is an influence under which one comes, and comes in a fragmentary way, not even totally in his being, but in certain parts and for a time.

This is the first stage.

The second: the influence becomes permanent and there is one part of the being which deteriorates, which is constantly under this influence and expresses it. After this, the being which has cast this influence tries to enter that part.

Then, usually, this produces a conflict, a kind of inner battle. People have fits, sometimes even nervous morbid fits.

In trying to resist, the two parts of the being come constantly into conflict, and this produces great imbalance, even physical imbalance.

But if one doesn't know how to resist and doesn't succeed in shaking off the hold, then gradually the being that has seized upon a part of the person acts like an octopus and spreads its tentacles like that, slowly and everywhere; and finally it is a total possession.

At the moment of the total possession, either the possessed person becomes completely unbalanced or he becomes a kind of monster and his psychic being leaves him (soul extraction).

Usually, in the human being the psychic is strong enough to be able to resist, and the most frequent case is that of constant conflict between the two parts, until the psychic being, if it is strong enough and knows how to lean on a greater strength than its own, is capable of rejecting this influence and freeing itself.

It is only in an extreme case of a total possession that the psychic being goes away."

from "Collected Works of the Mother, Volume 6"
(The Integral Yoga)

"The time will come - and it may not be far off - when quite different tendencies will come up at a congress like the one held in 1912 (In 1912 a science called [eugenetics](#) was established in London) and people will say:

It is pathological for people to even think in terms of spirit and soul.

'Sound' people will speak of nothing but the body. It will be considered a sign of illness for anyone to arrive at the idea of any such thing as a spirit or a soul.

People who think like that will be considered to be sick and - you can be quite sure of it - a medicine will be found for this.

The soul will be made non-existent with the aid of a drug.

Taking a 'sound point of view', people will invent a vaccine to influence the organism as early as possible, preferably as soon as it is born, so that this human body never even gets the idea that there is a soul and a spirit.

The two philosophies of life will be in complete opposition. One movement will need to reflect how concepts and ideas may be developed to meet the reality of soul and spirit.

The others, the heirs of modern materialism, will look for the vaccine to make the body 'healthy', that is, makes its constitution such that this body no longer talks of such rubbish as soul and spirit, but takes a 'sound' view of the forces which live in engines and in chemistry and let planets and suns arise from nebulae in the cosmos.

Materialistic physicians will be asked to drive the souls out of humanity."

Rudolf Steiner

"Fall of the Spirits of Darkness - Changes in Humanity's Spiritual Make-up"

Dornach, Germany, 7 October 1917

Here's a post by an energy healer/worker (don't know her/his name) who did a session on someone who received the Covid mRNA vaccine.

It confirms what **Rudolf Steiner** talked about over 100 years ago:

"I held a session with a person who had received the first and second dose of the vaxx.

I had already treated this person energetically, but I did not know that she had taken the vaxx. When I started the treatment, I immediately noticed the change, very heavy energy coming from their subtle bodies.

The scariest thing was when I worked on the heart chakra, I connected with her soul, so she was detached from the physical body, she had no contact and it was as if she was floating in a state of total confusion.

A damage of the consciousness that loses contact with the physical part, so with our biological machine, there is no more communication between them.

During the treatment, this soul told me that it no longer felt the body and had the impression of floating in a deep malaise.

The energy I was working with, the energy of their energy field, was very heavy and you could feel these substances that are very stressful for the subtle bodies.

I continued the treatment by sending light to the heart chakra, the soul of the person, but it seemed that the soul could not receive any more light, frequency or energy. It was a very powerful experience for me.

Then I understood that this substance is in fact used to detach the consciousness, so that this consciousness can no longer interact through this body that it has in life, where there is no more contact, no more frequency, no more light, no more energetic balance or spirit.

Then I started to cry for that soul because it was something that touched me deeply, a very powerful experience. I didn't say anything to the person because I didn't know how to say it and if they would have understood.

I realized that it is not only polluting the subtle bodies or the physical body, but it is something to do with our soul. The purpose is to damage and try to destroy the contact with consciousness.

What Rudolf Steiner said is exactly that.

It is not just about damaging the immune system.

Update

Second treatment of the person:

There has been another change and again a deterioration, both in the severity and in the energy that their energy field transmits, but most importantly there has been a very significant decrease in frequency.

At the moment she is not showing any physical symptoms on the physical body.

As for the situation manifesting on the energetic level and especially the soul, it has been confirmed that the soul has been expelled from the physical body, it is still bound by the so-called cord, but it confirms that it no longer interacts with the physical, emotional and mental body, there is no longer any kind of communication.

The soul is no longer able to manage these three bodies, to continue its process of incarnation and evolution, precisely because this contact has been broken."

A Litmus Test for Embodied (Self) Awareness

If you are truly in tune with your body and essence, i.e. embodied (in the true meaning of the word), you will naturally reject the COVID jab as you will reject any other poison/toxin and you will take care of your health holistically on ALL levels:

physical, emotional, psychological, and spiritual.

Then you will also hold the somatic intelligence and intuitive capabilities to see through the lies of this faux 'pandemic'.

Intelligence in that sense has nothing to do with degrees or education (which most often clouds real intelligence due to social/educational programming, and mostly only gives one a sense of intellectual superiority) but is tied to the intelligence of the body as an expression of essence, connected to the Divine and your true Self.

But it also requires lots of inner work to connect to the real part of ourselves.

In light of this understanding, here's a big oxymoron:

Yoga teachers, spiritual leaders/teachers/authors, somatic/embodiment therapists/teachers/authors, healers, energy workers, bodyworkers/massage therapists, naturopaths, nutritionists, and anyone in the "wellness industry" taking and promoting the jab.

It couldn't be more of a testimony of being out of touch with their body, spirit, and essence/soul.

This "pandemic" and how people react to it also reveals the true colors, especially within the spiritual, yoga, and wellness community. It's the ultimate litmus test for anyone who claims to have embodied (self) awareness.

Years from now, people will see what they have done and the truth will reveal itself more and more - and it is not going to be a pretty picture. It's a heavy karmic burden to carry.

For now, they laugh at us, gaslight us, ridicule and attack us with their ad hominem "conspiracy theorist" attacks and socially conditioned virtue signaling, not realizing how they have become vessels for occult hostile forces themselves.

Activating the Warrior - Civil Disobedience, Non-Compliance & The Great Work

However, there is no need to fall into despair and doom & gloom.

Evil plays its part in the evolution of consciousness and so do the occult hostile forces. They have a teaching function in the grand scheme of things as ALL these esoteric occult teachings have pointed out as well.

But it all depends on YOU and your sincerity to engage in the Great Work towards soul individuation and soul embodiment - bringing the soul/psychic being to the front and anchoring the soul/Divine within you so nothing and no one can "extract it", "dislodge" it and NOTHING can come in and manipulate you as you work to become conscious transducer for Divine Will - which is essentially your true Self.

This process makes your personality a clearer expression of essence, and you bring the soul "to the front".

This process is also the REAL meaning of embodiment (which has also been distorted via pop spirituality these days).

The more embodied (soul individuated) you are, the less the occult hostile forces have any influence over you.

But this process requires work and "super efforts" as Gurdjieff called it to "grow your soul".

Most people mistake their ego-personality and all kinds of feelings, impressions, and desires for their real soul but it is only the "fake desire-soul", as Sri Aurobindo called it.

It also requires sincere somatic psychological work to heal your traumas, childhood wounds, and engage in shadow work to make the darkness conscious, as Jung eluded to, which will close off the entry points for these hostile forces to come in.

The vaxx just amplifies the take-over as it "loosens" the astral body/soul from the physical body which creates the greater potential of "something else" to come in, but also keep in mind that this is an individual issue that depends on everyone's level of Being, soul lessons, body/mind/spirit constitution, etc.

Am I implying that anyone who took the jab will become automatically a soulless demon-possessed portal and these people are lost?

No, not at all. Everyone who took the jab will be affected differently. So, be careful of getting into paranoia and fear.

Also, keep in mind, this is a long-term agenda and we are just at the beginning. The vaxx passports (if they are able to go through with it on a global level) are just the precursor for the looming social credit system we see already in China.

The ongoing booster shots will include nano-particles to hook people up into the 5G net for full remote surveillance and also remote control of behavior, thoughts, and emotions (linking it to A.I. and transhumanism).

Most people will just laugh at these ideas as deluded "tin-foil hat" conspiracy talk, but these people who laugh are also the same people who thought the vaxx passport would never happen - and look where we are now.

We also need individual self-responsibility and to get out of any blame traps (not even blaming "entities"), complaining, or victimhood. Ultimately YOU (your true Self) and your creative potential are way more powerful than any anti-divine forces.

As I have said, over and over: there is a great opportunity presented to us and a silver lining amongst all of the insanity. We are going through a collective death-rebirth process and no one said it was going to be easy to "[wake up](#)", yet nothing will change until you have faced yourself.

But it does require a [warrior mindset](#), for it is a spiritual war.

Here's a little video I recorded about it a few weeks ago:

We're about to enter the next phase of the most intense multiple-dimensional war of galactic proportions.

This war is manifested in the physical world but it is also happening THROUGH you. Therefore, there is no hiding from it. You could try to escape to some remote island but you'll still be affected by it, since from a multi-dimensional perspective when these occult forces acting upon and through us, they know no such thing as time/space.

All will need to be revealed, within and without, the darkest secrets of the world and within your own psyche.

It's the necessary purging and purification process. Depending on how much you have already made conscious within yourself and engaged in the Great Work, healed your trauma, engaged in shadow work, etc, it will affect everyone differently - but no one can escape what is coming.

The Light will highlight ALL shadows in the world and within you.

It IS the apocalypse, i.e. the Great Unveiling...

Many people will rise up and engage in the awakening process consciously (which requires sincere efforts), and many others will disintegrate, getting sucked into the abyss of the unconscious as the asuric forces of the underworld take them over, which will eventually manifest in the merging of man and machine ([A.I.](#) and [Transhumanism](#)) and medical technocratic tyranny, the prime "vehicle" of the occult hostile forces.

It is Embodiment or Bust...!

So keep this process of soul integration and soul individuation at the forefront of your consciousness, clear your vessel and surrender to the Divine, bring forth the Kingdom and Light within you, and become a conscious transducer for the Divine Force.

That is what will carry and protect you through the waves and tsunamis of change:

RIISING UP as your **TRUE SELF**...

Rise Up, Speak Up, and Take Care of Yourself!

During this **Time of Transition**, when everything is inverted and *Forces of Darkness* attempt to enslave humanity in a desperate attempt to break your spirit, it is important to stay informed about the truth.

Especially during this time of **WWIII-level psychological information warfare**, we must speak out, resist, and engage in non-compliance and civil disobedience - while being grounded in warrior mode.

It is important we learn to stand up for our true values and rise for something bigger than our little egoic needs and personal desires.

This is the silver lining and opportunity during these times and at the same time a test for one's integrity, conscience, and courage. It requires stepping out of your comfort zone, excuses, and "safety" activating your god-given creativity with inspired action.

But once you answer the call sincerely with laser-focused 100% commitment and work, doors open where there have been no doors before and you will experience guidance and support all around you but no one is going to do it for you.

There is no such thing as "free" anything in the universe; there is always a "price" to pay and for the most part, you need to "pay with yourself" with will and dedicated effort.

EVERYONE has something to offer to the world, your unique gifts, and purpose but it also requires much inner (and outer) work to discover and activate your hidden treasures, working through all the layers of social/cultural programming that tell you why you "can't" do it as well as any trauma/wounds that diminish your light and essence and keep you in paralyzed victim/blame consciousness which is also the foundation of the matrix poverty consciousness...

You are way more powerful than you think you are.

Use this time to rise like the phoenix out of the ashes.

This is not just about pointing out what is wrong in the world, whining and complaining, getting into overly paranoid physical survival mode, or just fighting the old system and the globalist forces of the "Great Reset".

This is about CREATING the new world and a new timeline in accordance with Divine Will (connected to Essence), and your deeper soul calling.

Without *God*, you'll make this journey harder on you than it has to be...

The jump into the unknown can be scary for people who are not comfortable with change, attached to the "security" of a "regular paycheck", don't believe in themselves, and usually come up with all kinds of excuses why they "can't" or they want things for "free" (the bait of anti-divine ideologies like Marxism/Communism/Socialism), making themselves more dependent on mommy government (with the dangling carrot of "free universal income") and hence even sell their soul and take the jab.

This is truly an OPPORTUNITY and forces you to focus on what truly matters.

No more **time-wasting with trivial stuff...!**

At the same time, do not forget to take care of yourself and treat yourself to a *personal "Great Reset"* (pun intended) and decompress in nature periodically, take time away from social media, the internet, and your tech gadgets.

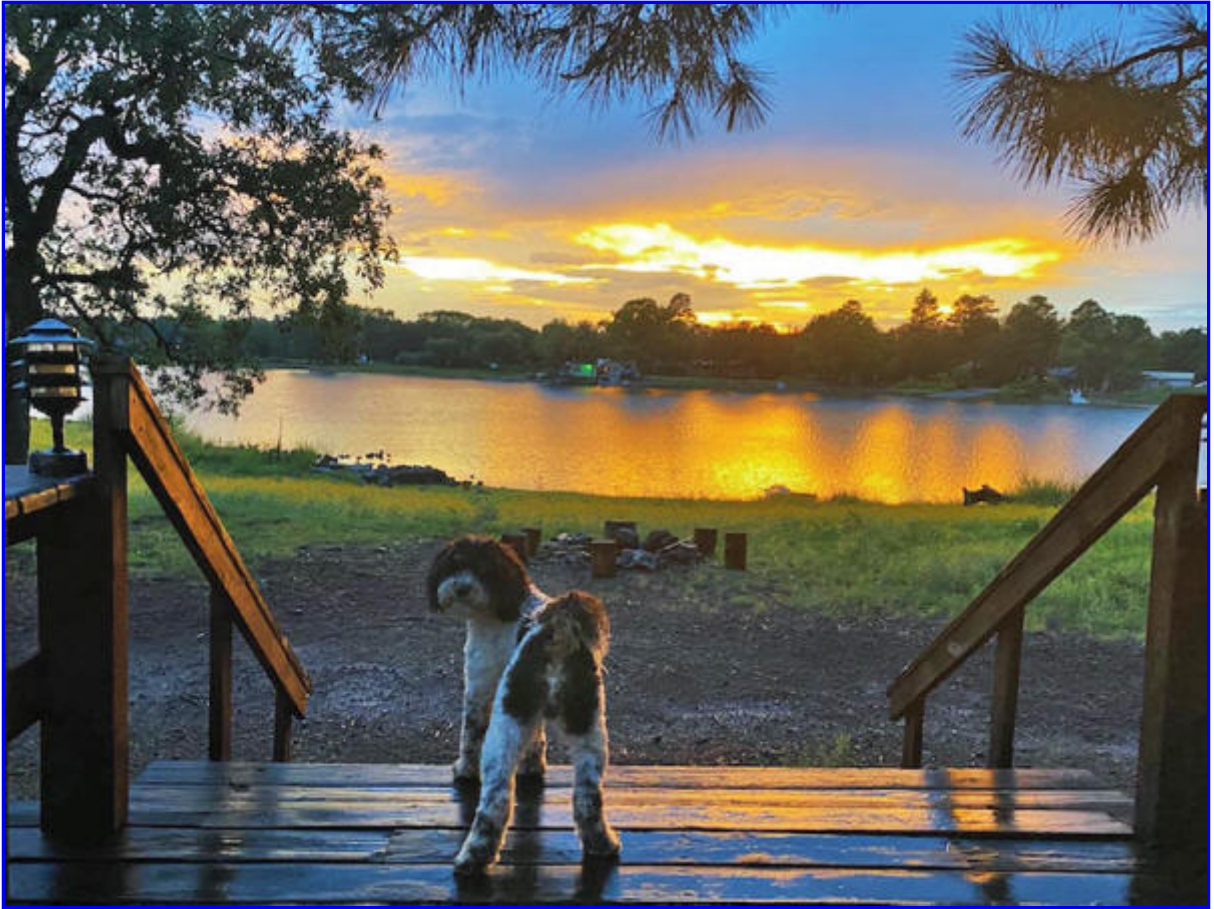

Get back into your body, out of the mind, and realize the joy of your soul and the beauty around you. Beauty - that can only be seen with the eyes of the soul - will help you experience the Divine Force all around you and within you.

Take time to recharge when possible to prepare for the times ahead, because we aren't seen nothing yet, and YOU ARE NEEDED during this critical juncture in history.

The ONLY thing that will carry you through these times is your connection to Essence and the Divine.

Your immortal true Self knows the Truth, knows what to do, where to be, and most importantly what NOT to do (that which is not aligned with Truth and Integrity - not just for yourself but for all of humanity) in alignment with Natural Law.

Our *dog Leo* (pictured below) teaches me a lot about the *Joy of Being*, which is essential for any embodied warrior because true objective LOVE destroys all evil.

This is not a meek emotional conditional love that most people experience in a relationship or the joy that most people mistake for "true" love.

It's not a feeling and it certainly doesn't depend on anything external. It's not a false "love" that is based on the fulfillment of desires, wishes, or dreams.

It's also not "niceness", "neutrality", "passivity" or "pacifism" which love is most often mistaken as.

It's a state of pure BEing that can't be threatened, intimidated, imprisoned, or even killed - for it is Eternal.

Hence **saying NO to the jab** is the EASIEST thing to do for anyone connected to Essence.

As your personality becomes a more pure expression of Essence (hidden beyond layers of programs, social/cultural conditioning, desires, wounds, traumas, healed and unraveled via the necessary inner work),

CONSCIENCE will become your guide, INSTEAD of your ego-personality with its conditioned desires, and you will naturally stand up for Truth.

You will know when to use the sword of Truth when necessary, with all the fierceness needed, and take full responsibility for the task ahead, because regardless of all opposition you will know you can't be threatened or intimidated anymore - because you KNOW YOURSELF.

No more excuses, no more hiding, no more blame, no more identifying as a victim, no complaining, no spiritual bypassing... but it is time to face the world, yourself, and reality as IT IS.

True FREEDOM,

requires a level of self-responsibility that many people are not ready for,

...hence they still want the *Mommy government* (along with the church of scientism) to take care of them and tell them what to do or they are waiting for a 'savior'.

Don't kid yourself, this is a war over your soul and we are nearing the "end game" which has already been prophesized by many esoteric traditions, but within it all, there is a BIG opportunity, a magnificent plan that no human mind or being can alter.

When you are in touch with your soul (not the fake desire-soul), you know that nothing can stop what is coming and it's marvelous... but there will be a bumpy road ahead.

Remember, the Divine will succeed at last but your participation IS needed as a potential transducer for Divine Will.

So be ready and prepare accordingly on all levels:

physical, emotional, mental, and spiritual...

Your voice and your **Soul** and **Being** matter.

Every conscious act grounded in Truth has unforeseen butterfly effects across all dimensions, across all time...
